

Mrs. Bremer works with a community facilitator, during the school year as facilitators of the Girls Circle groups. Two groups are held in the Spring for the Middle and High School girls. The girls are chosen by the counseling and administrative staff at both schools.

Please read the Girls Circle Mission below. If this is a group that you feel would be beneficial to you/your daughter, please contact Mrs. Bremer at 539-1442.

Girls Circle Association Mission

The Girls Circle Association seeks to promote girls' resiliency and connection by equipping group facilitators with skills and resources to hold Girls Circles in their communities.

Our purpose is to encourage the development of strength, courage, confidence, honesty, and communication skills for girls. Our goal is to enhance girls' abilities so they are able to take full advantage of their talents, academic interests, career pursuits, and potential for healthy relationships. Girls Circle Facilitator Training aims to furnish adults with the knowledge, skills, and support to effectively facilitate Girls Circles.

believe that Girls Circles are uniquely positioned to address and challenge cultural messages that limit and distort girls' self-image. We have found that girls' self-expression within a safe caring environment encourages self-confidence, authenticity in relationships, and enhanced judgment skills.
