

MADD is an organization that began with a mother who lost her child in a drunk driving crash. She turned grief into positive change... her work and the work of so many other mothers, fathers, sisters and brothers started a movement that has saved over 300,000 lives...and has prevented millions of injuries.

But even today, one in three people will be involved in an alcohol-related crash in their lifetime. Our children share the road with an estimated 2 million drivers who have had three or more prior drunk driving offenses.

Together, **we** can take steps to finish the work of one grieving mother and protect our families from the danger of drunk driving.
