

Starting the 2019-2020 School Year the iboss filtering system will now be used when off site from any WCSd school building. When accessing the internet offsite for the first time, you will need to click “iboss First Home Login” icon shortcut located on your desktop.

This will launch a web-based login screen. You will use your LAN account login as your username (first.last) and your LAN password Wat#####! . Be sure to select Waterloo as the server! Do Not use your email address.
